Early intervention pre-kindergarten program for children in families with limited financial means. This program is dedicated to enhancing the social, physical, intellectual, creative, cultural and emotional well-being of children, while supporting their families growth in parenting and life skills.

Children attend four half-days per week, September to mid-June to participate in a *Learning Through Play* educational setting. The program is designed to prepare the child for a successful school experience.

Speech therapy services are available for children with significant speech and language problems. Aspects of services also include a *Home Education Unit* for children with Program Unit Funding (PUF) who receive additional speech language therapy and in-home education and a *Family Support Program* where a social worker provides group and individual support to the family, as well as encourages parent involvement in the program.

Children must be 3 years 6 months by September 1.
Family Income must fall within low-income guidelines.
There is no cost for the program.
Transportation Provided.

Family Shelter Network

Contact: Jennifer Hunter at the Boyle Street Coop, phone 423-3122, ext. 251

The Family Shelter Network is a collaborative effort of the Boyle Street Co-op and the Bissell Centre to assist families affected by the critical shortage of safe, affordable and appropriate housing.

The Family Shelter Network has a partnership with Umisk Housing, and has access to 44 of their units acquired under the Affordable Housing Initiatives. Umisk is a division of Amisk Housing Association. They are an aboriginal organization but will accept non-aboriginal people under the homeless criteria.

Most of their units are in the North East End of the city. UMISK refers all housing enquiries to us. Amisk is subsidized housing, and has a very long wait list.

Umisk charges \$525.00 for a three-bedroom and \$475 for a two bedroom unit. They have townhouses, half duplexes, fourplexes, and an apartment building. Utilities are not included.

They do work with other landlords in the private market but they are mainly in the inner city area. We try to get landlords who are charging less than market value.

Special Education Program: Extensions

Extensions supports students who demonstrate extremely high intellectual ability and a primary need for gifted educational programming. Eligible students require substantially different educational programs and individual accommodations in order to achieve and prosper. Often complex and intense, students may see the world differently, feel a heightened sense of justice or responsibility, or deal with issues related to perfectionism. Highly intellectually able students may demonstrate uneven academic profiles or may seem out of synch with peers.

District Centre Extensions programming helps students to achieve academically and to understand their own challenges, developing coping strategies. Extensions classes offer smaller class size and highly differentiated programming that may include acceleration, extension beyond the curriculum in areas of strength, a counselling component and modified expectations. Where appropriate, students may access other classes, levels or modes of instruction.
